Nye HD Excavator Buckets:

Specifically designed for moderate to severe rock and shale applications where extra impact and abrasion resistance is required.

Exceeds OEM specifications.

Our HD buckets are available in both regular and long-lead “services bucket” patterns.

Custom patterns available, we work with our customers to develop new patterns specifically suited for their application.

Custom built to order for your specific machine. We do not use spacer bushings, shims, etc.

Excavator buckets also available in three other weight classes: HP, GP and UHD.
