

# NYE<sup>®</sup> HP (High Performance) Buckets

Est. 1952  
**70**  
YEARS

**Bores/Pin Locks** - Precision bored mounting eyes with proper O-ring grooves & heavy duty pin locks.

**Lifting Loop** - Customers choice welded closed or latched type.

**Mounting Eyes** - Extra thick 44W eye plates that exceed original equipment specifications.

**Utility Lugs** - For lifting, turning, pulling, etc.

**Side Plates** - Lightweight AR400 side plates.

**Side Cutters** - AR400 OR QT100 structural alloy steel (highly crack resistant).

**Body Taper** - Nye Buckets are tapered both ways, horizontally and vertically.

**Teeth** - Customers choice of teeth and wear parts.

**Cheek Plates** - Lightweight AR400 cheek plate.

**Base Edge** - QT100 high impact structural alloy steel (highly crack resistant).

**Bottom Plate** - Lightweight AR400 alloy basket.

**Wear Rails** - Extra thick, AR400 corner wear rails, protects bucket corners.

**Dual Radii** - Compound profile fills and dumps easy with reduced bottom wear.

## Features and Specs

- Superior performance through reduced weight.
- Nye High Performance (HP) buckets are built with lightweight, high strength alloys, for high speed digging in light to moderate conditions.
- Customers choice of teeth and wear parts.
- Available for all quick coupler types.

## Many G.E.T. Options

## QC Models Available

## AR400 Wear Straps

## HP Series Typical Specifications

Carrier	Model	Width mm [in]	Weight kg [lb]
09 - 14 t	12EX1	610 [24]	261 [575]
13 - 17 t	15EX1	762 [30]	352 [775]
16 - 24 t	20EX1	914 [36]	465 [1,025]
22 - 28 t	25EX1	1,067 [42]	1,032 [2,275]
26 - 38 t	30EX1	1,219 [48]	1,145 [2,525]
35 - 50 t	40EX1	1,372 [54]	2,188 [4,825]
59 - 90 t	70EX1	1,524 [60]	2,892 [6,375]

All Nye products are warranted to be free of defects in materials and workmanship for a period of 2 years or 2,000 hours. Specifications subject to change. → [nye.ca/terms](http://nye.ca/terms)

## Nye HP Excavator Buckets:

Specifically designed as a lightweight, high performance alternative to OEM buckets in any size and capacity.

Reduced weight means reduced fuel consumption and shorter cycle times.

Exceeds OEM strength specifications.

QT100 and AR400 heat-treated alloy steel cut from lighter gauge steel plate.

Available in both regular and long-lead "services bucket" patterns.

Excavator buckets also available in three other weight classes: GP, HD and UHD.

We have been in the business for over half a century and build only premium quality buckets using the finest quality materials and craftsmanship.
