Nye HP Excavator Buckets:

Specifically designed as a lightweight, high performance alternative to OEM buckets in any size and capacity.

Reduced weight means reduced fuel consumption and shorter cycle times.

Exceeds OEM strength specifications.

QT100 and AR400 heat-treated alloy steel cut from lighter gauge steel plate.

Available in both regular and long-lead “services bucket” patterns.

Excavator buckets also available in three other weight classes: GP, HD and UHD.

We have been in the business for over half a century and build only premium quality buckets using the finest quality materials and craftsmanship.

For more information call us at 905 897 2311 or visit: **nye.ca**.
