Nye Rotating Rock Grapple:

Excavator mounted, continuous rotation, rock grapple, designed to be used in the most severe applications. Primarily intended for picking and placing riprap and armor stone.

Continuous hydraulic rotator allows the operator to grip, flip, rotate and pull.

Formed tines made of QT100 steel, for lightweight and strength. Fully boxed for added rigidity.

Offered in positioned or dangling yoke configurations.

Nye rotating rock grapples are easy to install, safe and silent to operate and available in Quick Coupler and Pin Grabber compatible versions.
