The New SHX Stump Harvester:

Nye's Ultra Heavy Duty Stump Harvesters are designed to split any stump you can fit in its jaws. Excellent for removing dirt and rocks from stumps prior to grinding. Incorporates massive grubbing tines designed for in place harvesting. Rip, Pry, Shake, Split and Load with one tool. Engineered with the latest CAD software and custom fabricated with the aid of CNC machinery. Nye Harvesters are constructed from quenched and tempered alloy steels with hardened alloy pins and bushings throughout. Main cutting blade is made from super strong AR500 alloy steel, positioned on the operators side for superior visibility and control. Easily sharpened and maintained for both extreme service and long life. Nye Ultra Heavy Duty Stump Harvesters are easy to install, safe and silent to operate and available in Quick Coupler and Pin Grabber compatible versions. Optional Pin-On Grapple / Rake Attachment helps when handling large volumes of slash. For more information call us at 905 897 2311 or click: **nye.ca**.
