59 - 90 t	70TP1	2,200 [87]	1,089 [2,400]

Nye Pin-On Thumb:

Pin-On Thumbs pivot directly on the bucket (or coupler) pin, this allows the tines to follow the bucket teeth and stay coincident at all bucket angles. Pin-On Thumbs work well with both Conventional and Pin Grabber style Quick Couplers. Buckets and attachments can be changed using the coupler, saving you from having to fumble with the main bucket/thumb pin each time. These are the best thumbs money can buy. Our thumb kits are easily installed and provide years of dependable service. All Nye Pin-On Thumbs come with an induction hardened main pin, hydraulic cylinder and mounting bracket.

TP1 The best there is, from the King of Heavy Duty!
