22 - 28 t	25RP1	1,320 [52]	76 [3]
26 - 38 t	30RP1	1,320 [52]	89 [3.5]
35 - 50 t	40RP1	1,340 [53]	102 [4]
59 - 90 t	70RP1	1,830 [72]	102 [4]

Nye Frost Ripper:

Nye has a wealth of experience with custom Rippers of all types for all applications. We specialize in heavy duty rippers that weigh more and rip better than standard duty rippers due to the increased down force provided by the extra weight. Our virtually unbreakable Rippers are available in two shank lengths, long and short and various tooth configurations to suit the customers' needs and preferences.

For extreme heavy duty ripping we offer the MOAR™ and Ultra-High Mass MOAR™ rippers. These rippers are built with extra heavy solid steel frames for increased down force. Ultra High Mass MOAR™ Rippers feature heavy solid steel frames and added side weights for the ultimate in ripping power. Mechanical rippers are easy to install, safe, silent to operate and available in Quick Coupler and Pin Grabber compatible versions.
