

XPL1 Parallel-Link Stick Extension

1952-2017
65
YEARS

Easy Installation - Pins onto the end of your stick and uses the existing bucket cylinder.

Heavy Tubes - Heavy wall tubes and bushings for long life.

Drag Link - Sculpted lightweight box section, fabricated from QT100 alloy.

Bushings - Extra hard heavy wall alloy bushings throughout.

Made in CANADA - Custom designed and fabricated at our Mississauga plant.

Pins - Oversize, heat treated steel alloy.

Water Tight Box Section - Made entirely from QT100.

Internal Baffles - Placed in the best locations for maximum strength to weight ratio.

H Link - Built specifically to fit your attachments.

End Plates - Extra heavy QT100 end plates.

Features and Specs
