Nye Rotating Grab Fork:

Nye builds a wide variety of custom rotating Loader Forks that allow easy handling of piles, lumber, shoring, pipes, and logs.

Built for handling shoring equipment and erecting drill casings, this versatile attachment features extra thick heavy-duty forged forks that ensure years of reliability and dependability.

Oversize alloy pivot pins and bushings ensure durability and long life.

Dual direct acting rotate cylinders with overload protection and oversize excavator slewing ring are virtually indestructible. No delicate gears, motors or bearings to smash.

Direct pin-on or Quick Coupler mounting options. Custom versions are available to suit virtually any application.
