GRZ Grizzly Bucket:

Nye Grizzly buckets are engineered with abrasion resistant and high strength materials to widstand the most severe service.

Custom, bolt-in grizzly plates can be supplied with any hole pattern and size configuration to suit the materials being sorted.

This unique simple design does not contain any moving parts and can be reverse mounted allowing for easily filling, sorting, and dumping.

Great for use with a single excavator, or bucket to bucket work using two excavators, or loader to excavator.

Grizzly Buckets are available in various sizes, widths, and custom configurations. Compatible with or without a pin grabber coupler. Dedicated quick coupler types available.
